RE: My estimate is that between 695,000 and 960,000 Votes were destroyed of entire classes of Last Names within particular counties of PA. An Excel file can be downloaded at <https://www.preactiveinvestments.com/insights-2/>

Forty-seven years ago, my parents and siblings were the largest family ever released from the communist nation of Poland. A little over a year later, I was born. My parents were farmers from the town of Zakopane, located in the mountainous region of southern Poland.

My father was just shy of his 13th birthday when the Nazis invaded, and he shared with me stories of the entire experience. I heard firsthand accounts from my mom and my dad about not only the Evil Nazi Regime but also the communist Regime that would take over Poland after WWII. Poland did not have the good fortune of being liberated after WWII. It was out with the Nazis and in with the communists.

Even with such bad fortune, my parents never wavered in their Faith and Trust in God. They went on to have a family and had nine children in Poland, with me arriving one year after they arrived in the United States. Fortunately, they had a strong faith in God and did not take the advice of evil people to abort me by those that thought a 10th child was disposable.

They immigrated to the Greatest Nation in the History of the world when my dad was 48 years old and my mom was 37 years old, with nothing more than a 6th grade education, an unwavering faith in God, hard work, and belief in family and education. Keep in mind they did not speak any English, and yet would uproot their family to come to the United States for a better opportunity than was offered by the slavery mandated communist system.

The Lesson: not speaking the language or knowing the culture of a *God Loving Free Nation* is a far superior option than speaking the language and knowing the culture in an *enslaved satanic communist nation*.

As a young boy growing up, watching my President Ronald Reagan speak about the Evil Empire, I knew I was home. These speeches, combined with my parents' firsthand accounts, instilled in me my love of country, my love of my fellow Americans, and a disdain of evil people that proudly proclaim to be communists.

Fast forward to today, we are living a new version of the Evil Empire (2.0). This corrupt structure has been assembled by very evil people within the United States and abroad. When 4 companies can report *earnings* (not sales) of \$70 billion in 3 months (more than 10% of ALL corporate profits in 2000), while a presidential election costs less than 3 days worth of these same companies earnings, we should surmise something has gone terribly wrong.

Big Tech oligarchs, other globalist corporations, ill intentioned dynastic wealth, and other puppet masters have accrued *trillions* of wealth by "GAMING" the American people, and, in particular, our

elected officials. When the top 5 companies in the United States are on a run rate to earn over \$1 billion a day in NET PROFITS, *not sales*, what isn't for sale?

Much of the technology that has been used to accrue these vast fortunes has been weaponized against the Citizens of the United States and the world. The algorithms that have been developed for the financial markets have been deployed to "trade Americans" like we are stocks in a portfolio and pit each other against our fellow Americans. This needs to be HALTED. Just as there are circuit breakers in the financial markets, we need to develop circuit breakers of sorts to END the legalized propaganda in the US that was put into place via the Smith Mundt Act that was updated and passed in 2012. This has done irreparable harm to many Americans and the *TRUST* that we have towards each other and our government.

With this background, let's talk about Pennsylvania and Voter Irregularities. It is my ESTIMATE that between 695,000 to 960,000 votes have been destroyed.

Imagine if entire groups of Americans of African descent (I much prefer this language as I believe we are All Americans First) had every vote in a particular county destroyed. Then in another county, all of the Americans of Mexican descent destroyed, and in another, all of the Americans of Polish descent, etc. The Nation would erupt in outrage (as it should). Well, this happened with entire "classes" of surnames. All of a particular surname were DESTROYED in particular counties. Every vote of a particular last name wiped clean, every Republican, Democrat, Independent vote just WIPED OUT. Where is the outrage for this occurring?

I shared some of these insights on the phone with both Kathy Barnette and Doug Mastriano, but I never shared the file with them as I didn't know if I could trust them. From the surface, it does seem as though that was the right decision for me NOT to share these files with them. This is why I am sharing them now with EVERY POLITICIAN in the PA House and PA Senate. I don't know who to trust, so I figure one or more of you will do the right thing because it is the right thing to do! I'll be sharing this letter and this file with the American people as well.

(I've provided a link to the sheet on my company website under the Insights tab for the Excel file of the 67 counties of PA) with the 1000 most common surnames for you to review.)

Side Note:

Back in early December, Kathy Barnette, who lost her race for PA04, reached out to me to do analysis on her race. I provided her with files about census data that I put together for AZ going back 2 decades as well as Age/Voter analysis in an Excel file. If you request a copy by email, I will forward it to you. Kathy Barnette was supposed to share my findings with the American people. She did not, and I have reason to believe based on conversations I had with her and email correspondence that she is not Kathy for Truth but rather Kathy for herself. (Side note, I had a dream that she was going to attempt a run for US Senate and shared this dream with her and she said that was amazing because she was actually meeting with PA Senator Mastriano about that very topic the next day. Go figure, because she didn't know I shared many of my findings regarding this PA04 race with Mastriano over the phone and emailed it to one of his staff.

You can imagine my dismay when I had presented all of this information to not one, but two, so-called Republicans and ZERO was done about it. This information was provided to them back in the middle of

December, weeks before January 6th and could have possibly been instrumental in the Will of the People of PA having their rightful selection for President being recognized.

CONCLUSION

If you, the Legislators of PA, seek to maintain Peace, Order, Restore Liberty and Justice for All, then you, upon review of what I am sharing with you today and upon examination of the surnames that may or may not have gone missing in your respective counties is found out to be true, then you must act to have an audit performed on the 2020 Election Results.

We must never forget that God sheds his Grace on Thee only if we ACT JUSTLY when crimes are exposed. If we fail to act, then we can and will lose God's Grace. This will never be an ACCEPTABLE option for the American People and in particular Pennsylvanians.

Please review the data and restore the Will of the People of Pennsylvania, so help you God.

An American and fellow Pennsylvanian in Spirit,

God Bless

Bobby Piton

P.S. The number of votes destroyed in PA across the 1,000 most common surnames is offset by a surplus of those top 1,000 most common surnames in GA. So destroyed in PA, and reconstituted in GA. Quite a coincidence and something to further investigate?
